63643

# CONTENTS OF VOLUME LV.

No. 1. January, 1923.

MINOT, A. S. Lead studies. II. A critical note on the electrolytic determination of lead in biological material..... 1
LEVENE, P. A. Hydrolysis of yeast nucleic acid with dilute alkali at room temperature. (Conditions of Steudel and Peiser)..... 9
CROWDLE, JAMES H., and SHERWIN, CARL P. The chemical defence mechanism of the fowl..... 15
SUGIURA, KANEMATSU, and BENEDICT, STANLEY R. A study of the adequacy of certain synthetic diets for the nutrition of pigeons.... 33
MILLER, HARRY G. Potassium in animal nutrition. I. Influence of potassium on urinary sodium and chlorine excretion..... 45
MILLER, HARRY G. Potassium in animal nutrition. II. Potassium in its relation to the growth of young rats..... 61
SEVERY, HAZEL W. The occurrence of copper and zinc in certain marine animals..... 79

No. 2. February, 1923.

WATERMAN, HENRY C., JOHNS, CARL O., and JONES, D. BREESE. Conphaseolin. A new globulin from the navy bean, *Phaseolus vulgaris*. 93
ADDIS, T., and DRURY, D. R. The rate of urea excretion. V. The effect of changes in blood urea concentration on the rate of urea excretion..... 105
DRURY, D. R. The rate of urea excretion. VI. The effect of very high blood urea concentrations on the rate of urea excretion..... 113
EDDY, WALTER H., and ECKMAN, RENA S. The supplementary protein value of peanut flour..... 119
HAGGARD, HOWARD W. An accurate method of determining small amounts of ethyl ether in air, blood, and other fluids, together with a determination of the coefficient of distribution of ether between air and blood at various temperatures..... 131
MAYNARD, L. A., FRONDA, F. M., and CHEN, T. C. The protein efficiency of combinations of cornmeal and certain other feeding-stuffs, notably rice bran..... 145
TOLSTOI, EDWARD. The inorganic phosphorus of the serum and plasma of ninety-one normal adults as determined by the Bell and Doisy method..... 157
HENDRIX, BYRON M., and SWEET, JOSHUA E. The effect of Eck's fistula upon pancreatic diabetes in dogs..... 161

DENIS, W. On the selective action of the kidney as regards the excretion of inorganic salts..... 171
DENIS, W., and HOBSON, S. A study of the inorganic constituents of the blood serum in nephritis..... 183
FISKE, CYRUS H. The hydrolysis of amides in the animal body. The comparative stability of surface active homologs in relation to the mechanism of enzyme action..... 191
LEVENE, P. A., and MEYER, G. M. Epiglucosamine..... 221
CHAMBERS, WILLIAM H. The hydrogen ion concentration of the blood in carcinoma. I. From the colorimetric determination of the blood dialysate..... 229
CHAMBERS, WILLIAM H., and KLEINSCHMIDT, R. E. The hydrogen ion concentration of the blood in carcinoma. II. From the $CO_2$-bicarbonate ratio..... 257
FOSTER, G. L. Studies on carbohydrate metabolism. I. Some comparisons of blood sugar concentrations in venous blood and in finger blood..... 291
FOSTER, G. L. Studies on carbohydrate metabolism. II. An interpretation of the blood sugar phenomena following the ingestion of glucose..... 303
LUNDSGAARD, CHRISTEN, and MÖLLER, EGGERT. Investigations on the immediate effect of heavy exercise (stair-running) in some phases of circulation and respiration in normal individuals. I. Oxygen and carbon dioxide content of blood drawn from the cubital vein before and after exercise..... 315
Proceedings of the American Society of Biological Chemists..... i

No. 3. March, 1923.

HAMMETT, FREDERICK S. Creatinine and creatine in muscle extracts. IV. Concerning the formation of creatine from methyl guanidine in muscle..... 323
ROGERS, HOBART. Exposure to light as a source of error in estimating uric acid by the Folin and Wu method..... 325
CHIBNALL, ALBERT CHARLES. A new method for the separate extraction of vacuole and protoplasmic material from leaf cells..... 333
JONES, WALTER, and PERKINS, M. E. The gravimetric determination of organic phosphorus..... 343
NEUHAUSEN, BENJAMIN S., and RIOCH, DAVID M. The refractometric determination of serum proteins..... 353
HUBBARD, ROGER S. Ingested fat and body fat as precursors of the acetone bodies..... 357
CROWDLE, JAMES H., and SHERWIN, CARL P. Synthesis of amino-acids in the animal organism. II. The synthesis of ornithine in the body of the fowl..... 365
LEWIS, HOWARD B., and CORLEY, RALPH C. Studies in uric acid metabolism. III. The influence of fats and carbohydrates on the endogenous uric acid elimination..... 373

HELLER, V. G. Studies on yeast. V. The vitamine B content of yeast..... 385
STEENBOCK, H., SELL, MARIANA T., and NELSON, E. M. Vitamine B. I. A modified technique in the use of the rat for determinations of vitamine B..... 399
STEENBOCK, H., SELL, MARIANA T., and JONES, J. H. Vitamine B. II. Storage of vitamine B by the rat..... 411
WONG, SAN YIN. Colorimetric determination of iron and hemoglobin in blood..... 421
WONG, SAN YIN. The use of persulfate in the estimation of nitrogen by the Arnold-Gunning modification of Kjeldahl's method..... 427
WONG, SAN YIN. The use of persulfate in the estimation of nitrogen by Folin's direct nesslerization method..... 431
LEVENE, P. A. The action of diazomethane on xanthosine..... 437
MATTILL, H. A., and STONE, NEIL C. The nutritive properties of milk with special reference to reproduction in the albino rat. II. .... 443
BAUMANN, EMIL J., and HOLLY, O. M. The relation of lipoids to suprarenal physiology. I. The chloesterol and lipoid phosphorus contents of the blood of rabbits before and after suprarenalectomy. 457
LUNDSGAARD, CHRISTEN, and MÖLLER, EGGERT. Investigations on the immediate effect of heavy exercise (stair-running) on some phases of circulation and respiration in normal individuals. II. Oxygen and carbon dioxide content of blood drawn from a cubital vein at different intervals after exercise..... 477
DAKIN, H. D., and HARINGTON, C. R. The action of ammonium cyanide on diketones..... 487
BARR, DAVID P., HIMWICH, HAROLD E., and GREEN, ROBERT P. Studies in the physiology of muscular exercise. I. Changes in acid-base equilibrium following short periods of vigorous muscular exercise..... 495
BARR, DAVID, P., and HIMWICH, HAROLD E. Studies in the physiology of muscular exercise. II. Comparison of arterial and venous blood following vigorous exercise..... 525
BARR, DAVID P., and HIMWICH, HAROLD E. Studies in the physiology of muscular exercise. III. Development and duration of changes in acid-base equilibrium..... 539

No. 4. April, 1923.

JONES, WALTER, and PERKINS, M. E. The nucleotides formed by the action of boiled pancreas on yeast nucleic acid..... 557
JONES, WALTER, and PERKINS, M. E. The formation of nucleotides from yeast nucleic acid by the action of sodium hydroxide at room temperature..... 567
NEWCOMER, H. S. A new optical instrument for the determination of hemoglobin..... 569

POWERS, G. F., PARK, E. A., and SIMMONDS, NINA. The influence of radiant energy upon the development of xerophthalmia in rats: A remarkable demonstration of the beneficial influence of sunlight and out-of-door air upon the organism..... 575

LUNDSGAARD, CHRISTEN, and MÖLLER, EGGERT. Investigations on the immediate effect of heavy exercise (stair-running) on some phases of circulation and respiration in normal individuals. III. Effect of varying the amount and kind of exercise..... 599

GIBSON, H. V., and DOISY, EDWARD A. A note on the effect of some organic acids upon the uric acid excretion of man..... 605

ANDERSON, R. J. Composition of corn pollen. II. Concerning certain lipoids, a hydrocarbon, and phytosterol occurring in the pollen of White Flint corn..... 611

ADDIS, T., and DRURY, D. R. The rate of urea excretion. VII. The effect of various other factors than blood urea concentration on the rate of urea excretion..... 629

ADDIS, T., and DRURY, D. R. The rate of urea excretion. VIII. The effect of changes in urine volume on the rate of urea excretion .. 639

NOYES, HELEN MILLER, SUGIURA, KANEMATSU, and FALK, K. GEORGE. Studies on enzyme action. XXII. The lipolytic actions of various tissue and tumor extracts at different hydrogen ion concentrations. 653

SHIPLE, GEORGE J., and SHERWIN, CARL P. Some derivatives of cystine and cysteine..... 671

PETERS, JOHN P., BULGER, HAROLD A., and EISENMAN, ANNA J. Studies of the carbon dioxide absorption curve of human blood. I. The apparent variations of $pK_1$ in the Henderson-Hasselbalch equation..... 687

PETERS, JOHN P., EISENMAN, ANNA J., and BULGER, HAROLD A. Studies of the carbon dioxide absorption curve of human blood. II. The nature of the curve representing the relation of pH to $BHCO_3$..... 709

MATTILL, H. A. The utilization of carbohydrate by rats deprived of vitamine B..... 717

GROSS, E. G. Inorganic salt metabolism. II. Inorganic ion ratio after administration of oxalates and citrates..... 729

HUNT, CHARLES H., WINTER, A. R., and MILLER, R. C. A possible factor influencing the assimilation of calcium..... 739

LEVENE, P. A., and ROLF, IDA P. Lysolecithins and lysocephalins... 743

HALL, F. G. A method for the determination of dissolved carbon dioxide..... 751

NASH, THOMAS P., JR., and BENEDICT, STANLEY R. On the mechanism of phlorhizin diabetes..... 757

BENEDICT, STANLEY R., and OSTERBERG, EMIL. Sugar elimination after subcutaneous injection of glucose in the dog. Including a discussion of the paper on observations on carbohydrates by Folin and Berglund..... 769

LEVENE, P. A., and MIKESKA, L. A. On a possible asymmetry of aliphatic diazo compounds. IV ..... 795
LEVENE, P. A., and SIMMS, HENRY S. Calculation of isoelectric points ..... 801
WILLAMAN, J. J., and OLSEN, AKSEL G. The bios requirement of bakers' yeast ..... 815
Index to Volume LV ..... 837
